SUMMARY

Experienced software developer with a proven track record of over 4 years in designing and developing applications. Proficient in a wide range of technologies, such as Web3, Solidity, Hardhat, Truffle, PHP, Golang, Node.js, Next.js, Redis, Docker, MySQL, and more. Successfully delivered projects for state-owned, regional, and private companies, showcasing adaptability, expertise, and a strong collaborative spirit. A team player who thrives on solving complex problems and embraces new challenges. Passionate about technology and driven to acquire new experiences while engaging with individuals who bring diverse perspectives. Known for delivering high-quality products, optimizing code performance, and effectively collaborating with cross-functional teams and I really enjoy trying new things and gaining new experiences.

EXPERIENCE

Software Engineer

10/2022 - Present

PT. MNC Digital Entertainment - RCTI+

- Work cross-functionally with the Product, Design, Operations, and Backend teams across the squads to ship world-class products and features.
- Write code that's clear, concise, performant, tested, and easily understood by others.
- Partner with the product management team to execute the feature roadmap.
- Work with the overall software engineer teams to execute the engineering roadmap.
- Help debug production issues across services and levels of the stack.
- I employ a comprehensive set of tools in my work, including PHP, Golang, Node.js, Next.js, Redis, Docker, MySQL, and various other development tools.

Founder

05/2019 - Present

Digital Of Thinking

- The team that I have formed with my friends is highly passionate about technology and actively involved in various technology-related projects.
- Designing and developing an Information System for the Population and Civil Registration Agency. This system focuses on document services such as KTP (Identity Card), KIA (Electronic Identity Card), and FAMILY CARD for Tebing Tinggi City and Padangsidempuan City.

Blockchain Developer

06/2022 - 10/2022

Avarik Saga Universe Pte. Ltd

- The role involves developing Solidity smart contracts that are seamlessly integrated with a web3 game built on the Unity platform.
- Develop smart contracts using Solidity, including standards like ERC721, ERC20, and others.
- Optimize smart contract operations for minimal latency and computational cost.
- Collaborate closely with product managers, UX/frontend developers, and backend engineers to meet feature rollout timelines.
- Build decentralized applications using React.js, Web3.js, and Ethers.js.
- Emphasize creating immersive and user-friendly experiences in decentralized applications.

Blockchain Developer

12/2021 - 07/2022

Eshark Token

- Develop smart contracts using Solidity, including standards like ERC721, ERC20, and others.
- Optimize smart contract operations for minimal latency and computational cost.

- Collaborate closely with product managers, UX/frontend developers, and backend engineers to meet feature rollout timelines.
- Build decentralized applications using React.js, Web3.js, Hardhat, Truffle and Ethers.js.
- Emphasize creating immersive and user-friendly experiences in decentralized applications.

Backend Developer08/2020 - 06/2022

PT. STREAM

- Participating in the entire application lifecycle, with a specific focus on coding and debugging tasks.
- Writing clean and efficient code to develop functional web applications.
- Troubleshooting and debugging applications to identify and resolve any issues.
- Performing UI tests to optimize performance and ensure a smooth user experience.
- Collaborating closely with front-end developers to integrate user-facing elements with server-side logic.
- Building reusable code and libraries that can be utilized in future projects.
- Utilizing Laravel frameworks, Node.js, MySQL, and Redis to develop and enhance applications.

Software Developer06/2018 - 08/2020

PT. Rangkai Utama Berjaya

- Responsible for designing and developing accounting and finance systems for RS. PHCM, a subsidiary of Pelindo 1.
- Collaborated with stakeholders to understand their requirements and translated them into a comprehensive system design.
- Developed robust modules tailored to the specific needs of RS. PHCM, ensuring adherence to accounting principles and regulatory requirements.
- Implemented efficient data management and reporting functionalities to enhance financial analysis and decision-making.
- Conducted regular system maintenance, troubleshooting, and collaborated with end-users to identify areas for improvement in the ERP system for RS. PHCM.
- Focused on seamless integration between modules and enhancing system usability for increased productivity.
- Designed and developed a comprehensive finance, accounting, warehouse, and budgeting system for PDAM Tirtanadi Medan.
- Collaborated closely with the PDAM Tirtanadi Medan team to understand their requirements and challenges.
- Implemented a scalable and efficient system, integrating it with existing processes and data sources for smooth operations and data accuracy.
- Provided training and support to end-users during system implementation and post-implementation phases.

EDUCATION

Information System2020

Potensi Utama University - Bachelor of Computer Information Systems

- Leader of membership in UKM PUCC.

CERTIFICATES

Belajar Membuat Aplikasi Back-End untuk Pemula07/2021 - 07/2024

Belajar Dasar Pemrograman JavaScript07/2021 - 07/2024

Cloud Practitioner Essentials (Belajar Dasar AWS Cloud)06/2021 - 06/2024

SKILLS

PHP	Expert	Golang	Intermediate
Javascript	Intermediate	Node JS	Advanced

Mysql	Advanced	Next Js	Intermediate
Redis	Intermediate	Socket IO	Advanced
Git	Advanced	Docker	Intermediate
React JS	Intermediate	Mongo	Intermediate
Solidity	Advanced	Firebase	Intermediate
Truffle	Advanced	PostgreSQL	Intermediate
Hardhat	Advanced	Problem Solving	Advanced
Laravel	Advanced	C++	Intermediate

LANGUAGES

English	Basic	Javanese	Intermediate
Bahasa Indonesia	Native
